RESULTS .4

Table 1: synthesis of results

Target organism	Repellent efficacy in %
Mosquito <i>Aedes aegypti</i>	98%
Mosquito <i>Culex quinquefasciatus</i>	99%

CONCLUSION

In the conditions of the trial, with the sample provided, insects' strains and : methodology used, the product

FINITO EL MOSQUITO L

has proved a very good repellency effect (> 95%) against both mosquito species in testing.

QUALITY INSURANCE RESPONSIBLE: Bruno Serrano / Agronomist engineer

METHODOLOGY:

The test system was based on the "Guidance on the Biocidal Products Regulation - Volume II Efficacy – Assessment and Evaluation (Parts B&C) – Version 3.0 - April 2018 - ECHA".

The trial was conducted in accordance with the Good Experiment Practice procedures according to the laboratory agreement by the French Ministry of Agriculture (European directive 91/414/CE - rule 1107/09)
